

Ibrahim Njie

IT Project Manager | Agile Coordination | IAM Governance

Stockholm | 070-461 62 56 | ibrahim.njie1995@gmail.com | linkedin.com/in/ibrahim-njie-68446817b

PROFILE

IT Project Manager with experience driving and coordinating complex initiatives in enterprise environments critical to society. Works in a structured, cross-functional way across IT, security, business, and external suppliers, with a focus on planning, follow-up, risk management, and stakeholder management. Leads workshops, demos, and retrospectives in agile teams, complementing hands-on project management experience with a post-secondary vocational degree (YH) in IT Project Management and a Professional Scrum Master certification (PSM I).

CORE COMPETENCIES

- IT project management & agile coordination
- Workshop facilitation, demos & retrospectives
- Stakeholder management & vendor governance
- Risk, dependency & follow-up management
- RFI processes, procurement & sourcing
- Identity & Access Management (IAM) & Access Governance (IGA)
- Microsoft Entra ID, Active Directory & hybrid identity
- Atlassian Suite (Jira, Confluence, JSM)
- Documentation, structure & records management
- Process & structure optimization
- PMO, business governance & strategic project management

PROFESSIONAL EXPERIENCE

IT Project Manager / IAM Coordinator — Trafikförvaltningen, Region Stockholm

2025 – 2026

- Coordinated IAM, IGA, and identity security initiatives in one of Sweden's most complex and societally critical IT environments
- Took part in the strategic insourcing project "Egen rådighet" (budget scope 25–50M SEK) – brought IAM, IGA, and IDP in-house from an external supplier; contributed to public procurements, RFI processes, budgeting, risk analyses, and architecture, all within the frame of NIS2 and GDPR
- Contributed to consolidating 30,000+ identities (human and non-human) in the "Identitetsregister" project (budget scope 25–50M SEK), fragmented across many systems, for improved security, traceability, and data quality
- Owned the Kanban board and follow-up responsibility in Jira/Atlassian for the "Operational Security" group – 28 people across 5 teams; migrated planning from PowerPoint to Atlassian; introduced Definition of Ready (DoR) and Definition of Done (DoD)
- Took part, together with Scrum Masters and agile coaches, in a department-wide initiative to break down silos and establish shared ways of working across the entire IT department (around 300 people)
- Drove "AI Champions" – an organization-wide initiative to build AI competence, including an AI FAQ grounded in NIS2 and GDPR
- Forum lead for all 12 project managers within the Infrastructure & Platforms section – facilitated peer knowledge-sharing and improvement plans between PMs, and optimized onboarding for new PMs
- Coordinated between IT, security, business, architects, and external suppliers
- Supported as a specialist in following up on Omada (IGA system), including documentation management and records handling
- Worked with Entra ID, Active Directory, access governance, and identity lifecycles

IT Project Manager (Internship) — Nvrmind, Stockholm

2025

- Led development projects for a sales-support system for an external client in an agile setting
- Gathered requirements and translated them into backlog refinement, epics, and user stories
- Ensured communication between client and development team, tracked timelines in GitHub

Senior Staffing Manager — Vårdbron, Stockholm

2020 – 2024 (complementary coordination and delivery experience)

- Coordinated multiple parallel, fast-paced processes with delivery responsibility for a consultant pool of around 20 specialists
- Owned stakeholder management between clients and consultants, including conflict resolution and contract follow-up
- Managed procurement, contracts, penalty risk, and financial targets
- Recruitment responsibility and salary negotiations for consultants in the pool; administration, records management, and CRM systems as part of daily work

EDUCATION

- Post-secondary vocational degree (YH) – IT Project Management, 300 credits (2024–2025)

CERTIFICATIONS

- Professional Scrum Master I (PSM I) — [scrum.org](https://www.scrum.org), May 29, 2025
